

Birds fly in the
first heaven of
Earth's atmosphere
(Jeremiah 4:25).

GOD ALSO CREATED BIRDS ON THE FIFTH DAY.

When God made sea life, He also made "fowl that may fly above the earth..." (Genesis 1:20). Each "living creature" that God made was different from other creatures, yet each was perfect in its own way. God gave every creature exactly what it needed to live where He put it. God created fish with gills, scales, and fins to live in water. He gave flying birds lungs, light-weight bones, wings, and feathers to soar through the air. God blessed the sea life and birds, for He wanted each creature to reproduce young ones, after its own kind.
