Outline of True Science Workshop #3 – Chemistry a hands-on science workshop

Following are the topics covered in True Science Workshop #3.

- 1) Sodium's reaction with electricity
- 2) Chemical reactions: solid to liquid
- 3) Viscosity and density
- 4) Heat transfer: air and liquid
- 5) Water electrolysis-separating H₂O with electricity
- 6) Physical adhesion
- 7) Testing and changing acidity in a substance
- 8) Cross-linking polymers
- 9) The changing states of matter - endothermic & exothermic reactions
making ice cream in a baggie

The emphasis of the Workshop is on the reliability and complexity of the material world as evidence of intelligent design in God's Creation. The Workshop is suitable for third grade and up and lasts approximately 3 hours. Two sessions can be held on the same day.

If the Lord is abandoned as Creator, He will soon be lost as Savior.
